

# **Boyd Bros raises \$8300 for Children's Hospital of Alabama**

Boyd Bros. Transportation hosted their first annual Miles For Miracles 5k Walk at the Clayton Municipal Airport in Clayton, AL on May 1st. It started out as a way to encourage exercise among Boyd employees and quickly spread into a community wide event to raise money for The Children's Hospital of Alabama. We had a fantastic turnout for our first year. Nearly 100 people, from a 4 month old baby in a stroller to an 83 year old grandfather came out to walk and show support. The youngest walker to make the 3 mile track was Cate Cooper. Little Miss Cate is the 5 yr old daughter of Boyd Bros COO, Chris Cooper and his wife Mandie.

Thanks to donations collected by Boyd employees and the sale of t-shirts, Boyd Bros. collected \$8300; which blew away the planning committee's expectations. It's evident that the Children's Hospital of AL is dear to the hearts of the people in our community. 100% of the donations will be donated to The Children's Hospital. Boyd Bros is excited and honored to help support this hospital that provides lifesaving resources for children and their families all over our state and nation.

It was a great day and fun was had by all. Charity walking is a fun and inspiring way to revitalize your exercise program because it keeps you motivated in your exercise routine and allows you to experience the joy of helping a cause you care about.
